### HOLD AN AFTERNOON MEETING

Probably—State Committee Will Arrange His Speaking Schedule in This State Later.

PARKERSBURG, W. Va., Sept. 20. The Intelligencer, Wheeling.

Colonel Roosevelt will arrive in Wheeling from Cleveland on the morning of October 18. He will spend two days in West Virginia. The state committee will arrange schedule later.

JAMES K. HALL, Secretary, Republican State Committee.

The above telegram received last night by the Intelligencer will be received with the greatest enthusiasm by Wheeling and Pan Handle Republicans. Since the campaign's opening, the most frequent inquiry has been, "When does Roosevelt come?" and until now the county committee and everybody else have been unable to answer definitely, though it was known that Colonel Roosevelt would come about the middle of October. Senator Scott having given that assurance through the Intelligencer some time ago.

As Colonel Roosevelt is to arrive in the morning, it is likely that the meeting in Wheeling will be held in the afternoon, especially as it is the desire of the state committee to have the candidate for vice president make as many speeches as possible during his short stay in West Virginia. The arrival in the morning will make it possible to bring out the Rough Rider clubs, and give the distinguished visitor a reception befitting his great achievements and exalted position. Doubtless a hand-shaking reception will be arranged for before the meeting is held.

### DOVENOR AND FITCH

Address a Republican Mass Meeting at Moundsville—There was a Large Crowd and Great Enthusiasm.

The Republican mass meeting at Moundsville last night was a grand success. The court house was filled to overflowing and many were compelled to stand. The Conley band furnished music for the occasion. The S. M. Steele marching club and drum corps gave a short parade before the speaking began and elicited much applause. This was their first appearance in public in uniform, and they will be very much in evidence during the campaign.

The meeting was called to order by S. S. Wilson, secretary of the Republican executive committee, who named as president of the meeting Edgar A. Holmes, of New York, and the following vice president: C. A. Weaver, G. S. McFadden, W. J. Burley, J. W. Dowler, S. L. Boyd, J. L. McMechen, Charles Kinney, R. B. Koch, H. J. Carothers, Dr. T. R. Rogers and J. T. Francis.

Mr. Holmes made a few remarks in which he said the principles of Republicanism are as clear as the beams of light which come from above; that the issue of the Democrats of four years ago has been switched to imperialism; that if the occupation of the Philippines is imperialism then he was in favor of imperialism. He spoke of our present occupancy of the different islands and of the blessings we carry with us. He then in a few appropriate remarks introduced Hon. B. B. Dovenor, who spoke in part as follows:

We hardly know where to find the enemy; he changes his camp. He said he would talk of only two things which he would like to see on the other side of the silver behind, namely, trusts and imperialism. We have had only one Democratic administration since 1860. During Cleveland's first administration there was only an administration of Republican laws. He reviewed the promises of the Democrats, of good times, &c., and then told what actually followed. There is no such thing as imperialism in this country. There is no such issue.

He spoke at some length of the speeches of W. J. Bryan, of his claiming to be the friend of the laboring man, and then showed what had been done by the two parties, and then appealed to his hearers to decide for themselves which was their true friend. The speaker then told of the hard times of Cleveland's last administration and of the change which began as soon as McKinley was inaugurated, and asked if we wanted to go back to the times of '93, '94, '95 and '96. He took up the points upon which J. O. Pendleton is to speak next Saturday night, "the consent of the governed," "our plain duty to Porto Rico," &c., and reviewed the acquisition of territory by the United States, including the purchase of Florida, which occurred during a Democratic administration. This was done without the consent of any of the people living there, and when some of those people rebelled against our authority as Aguinaldo had done, some of them were shot and others hanged. Our acquisition of other territory was then spoken of and of our governing all of these territories "without the consent of the governed." He said the Democratic party is always in favor of war in time of peace and of peace when there is war. The Democrats were in favor of our war with Spain, although we were not ready for war, and they tried to force war upon us before we were ready. But when we went to war, it was with no imperialistic ideas, but that the Cubans should have the same blessings of liberty and republican form of government, and they are getting them. The speaker reviewed briefly the war with Spain, the blue and the gray fighting side by side and of the glorious victory. Then of the cessation of hostilities and the appointment of the board of peace commissioners (a non-partisan board) by the President and of the treaty of peace.

The acquisition of the Philippines was only an incident in the war with Spain. The ratification of the treaty of peace was not by a Republican senate, so the votes of a number of Democratic sena-

tors were needed and W. J. Bryan got seventeen of them to vote for it, although they knew that Aguinaldo and his men had opened fire upon our flag two days before. He spoke of the encouragement the Philippines have received from W. J. Bryan and the Democratic party, and of how they have called Aguinaldo a second George Washington.

The speaker then spoke at some length on trusts and said that the only trust legislation we have ever had was done by a Republican Congress and the bill signed by a Republican President. Then he spoke of "our duty to the Porto Ricans," of how the sugar and tobacco trusts bought up all the sugar and tobacco at a discount thinking to get it admitted free to the United States, but Congress, when it knew of it, decided that the Porto Ricans would not be benefited by the repeal of the duty on these articles, and refused to take the duty off, but reduced it to 15 per cent and returned the money coming from these duties to the people of Porto Rico.

### Colonel Fitch.

Colonel E. H. Fitch, of Huntington, was then introduced and received quite an ovation. Colonel Fitch is a very forcible speaker and his remarks were listened to with the closest attention. He took up state issues and told of how the Democrats while in power in this state were compelled to borrow money. Up to 1894 they had borrowed \$100,000 to cover deficiencies. What have we done? We have not only repaired our state buildings, but have money enough to pay all expenses for carrying on state business, something the Democrats never did. He then compared the management of the state prison under its present management with its former management, showing that \$39,460 has been saved to the taxpayers.

He then took up the secretary of state's office and other offices and showed a correspondingly saving of money to the people of this state, and yet the taxes have not been raised. He then appealed to the people to think of these matters before they turn over to the Democrats the management of state affairs. He spoke of Mr. Holt, candidate for governor on the Democratic ticket, in the most flattering manner, but he is a Democrat, and he advised the people to not elect him governor.

He then briefly spoke of the different issues. In his clear forcible way which was easily understood by all. He then spoke of present conditions of prosperity and told what we may expect if Bryan is elected in November. He was listened to with the closest attention throughout and frequently interrupted by applause. The people of Moundsville will always be glad to have him come back.

Just before the speaking began a lot of fire fireworks were set off in front of the court house. They were furnished by Mr. Holmes, secretary and general manager of the new F. C. & W. railroad.

### THE VETERAN BOOTH

One of the Oldest River Men Living, Figures in a Bad Accident at His Home Down the River—His Recovery Hoped For.

The distressing information reached the city yesterday that Captain John K. Booth one of the oldest steamboatmen living, who had just returned from Colorado, where he has mining investments, had suffered a bad accident. Captain Booth entered a dark hallway in his home, near Clarington, and stumbled down a stairway, receiving serious injuries, and it is feared that there was concussion of the brain, in which event his condition will be quite serious. The hope is general here in Wheeling, where Captain Booth is so well known, that he will soon recover.

### Fell From a Motor.

Last night about half past 11 o'clock Ross Hobebehl, book-keeper at the Wheeling Corrugating Works, attempted to board the last out-going Wheeling & Elm Grove car near the Central glass works, and in some manner his foot slipped, throwing him with some force to the ground. He was picked up and Dr. Beabout summoned. He had several gashes cut in the back of his head and a deep cut on the forehead. The surgeon stitched the wounds and later he was placed in a carriage and removed to his home at Echo Point.

### TREATED FOR HEART TROUBLE.

Two Wheeling Horses, Star Onward and Ella H., Were Among Thursday's Winners.

The third and last day of the Ohio Valley Fair was a decided success, and although the weather was threatening, the attendance was good, over 3,000 being on the grounds. There were not so many farmers present, but the Moundsville people were there in force.

The 2:40 mixed race, which could not be finished Wednesday evening on account of darkness, was finished before the races set for the day were called, and resulted as follows: Star Onward, owned by Waddle, of Wheeling, first; Improve, owned by J. B. Wiseman, of Lanesville, W. Va., second; and Miss Dempsey, owned by E. E. Brown, of Flushing, O., third.

In the 2:24 pace, Dr. Fox, owned by Price Whitaker, and entered by H. Bines, of Wheeling, driven by Harry Thatcher, fell dead within a two hundred yards of the finish. The driver was not hurt. The horse was treated just after the New Martinsville fair by Dr. L. N. Reefer, the Wheeling veterinarian, and in the State Fair races here last week he seemed sound enough. Such cases are very infrequent.

### WALLACE'S A GOOD CIRCUS.

The threatening weather cut down the afternoon attendance, but the Night Crowd was Large, and Everybody Was Well Pleased With the Show.

Wallace's circus came to town yesterday and gave afternoon and evening performances at the Bridge park on the Island. The threatening weather cut down the afternoon attendance to a considerable degree, but in the evening the big tent was crowded. In the morning a fine street parade was given, and in fact compared well with circuses that make more extravagant claims.

One of the most pleasing features of this circus is the grand concert by a band of twenty-eight pieces as a prelude to the entertainment proper, being given during the period when the crowd is arriving. This is a novel innovation and one worth copying by other circus managers. The Nelson family of acrobats made a decided hit, as did the trained pigs, the Striks in bicycle and skating specialties, the stutney artists, the Livingstons in aerial work, the Sisters Vortex on the trapeze, and in fact every number on the programme.

### Banker Foote Dead.

NEW YORK, Sept. 20.—Charles B. Foote, of the New York banking firm of Hatch & Foote, which made an assignment a few days ago, died at Oceanic, N. J., to-day.

A Hindoo believing in the transmigration of souls, ate no animal food, because in destroying even a worm he might be destroying the body occupied by an ancestor. A traveler coming upon the Brahmin taking his vegetable meal, told him it was impossible to avoid destruction of animal life and, to prove it, focused a microscope on the fruit the Brahmin was eating. That pious person drew back horrified at the living forms he saw. What did he do? Throw away the fruit? Not he! He smashed the microscope and went on with his meal.

### "GERMAN DAY."

The General Committee Holds a Well Attended and Enthusiastic Meeting—The Addresses Will Be Delivered on the City Building Square, at a Dewey Day.

Last night, at Beethoven hall, there was a largely attended and enthusiastic meeting of the "German Day" general committee, to further arrangements for the great celebration of October 3. The chairman of the general committee, Dr. H. W. Zimmer, presided, and nearly every German-American society in the city and vicinity was represented.

Chairman Beu, of the executive committee, reported that the eighth of October had been fixed as the date of the celebration, and that the programme would consist of music, addresses, etc., at the city building square, preceded by a monster parade, all in the afternoon, and that in the evening there would be social festivities at the various halls, Arion, Beethoven, Mozart, etc. The executive committee further recommended that the temporary sub-committees already appointed be made permanent, and that such further committees be appointed by the general committee as may be deemed advisable. The action of the executive committee was ratified.

Dr. C. F. Ulrich, president of the German Pioneer Society, was made honorary president of the Festival. In a neat speech, Dr. Ulrich thanked the committee for its action and accepted the honor.

Bernard Bach was elected chief marshal, and Jacob Korn was made chief of staff. They were authorized to appoint division marshals. All societies are requested to report to the chief marshal as soon as possible the number they expect to turn out in the parade.

Press and Railroads—C. W. Bente, Louis Colmar, Rev. Paul Metzenthin. The chairman of each sub-committee was requested to attend meetings of the executive committee to report progress.

The general committee adjourned to meet again on Sunday, September 30, at 2:30 p. m.

The executive committee met to discuss and reconsider the action already taken on the place of holding the celebration. It had been intended to hold the speaking exercises at the state fair grounds, but this action was reconsidered, and it was decided to have the speaking occur on the city building square, where a stand something on the order of the one erected for Dewey Day will be erected. The social features will occur in the evening at the several halls. The committee adjourned to meet Sunday evening at 7:30 o'clock, at Beethoven hall.

### NOTHING LEFT

Of the Boer Army but a Few Marauding Bands—Lord Roberts' Report on the Johannesburg Plot.

LONDON, Sept. 20.—Lord Roberts cables from Nelspruit, on the Pretoria-Delagoa Bay Railroad, not far from Komati Poort, the frontier station, under date of Wednesday, September 19, as follows:

"Of the three thousand Boers who retreated from Komati Poort before the British advance from Mafeking, seven hundred have entered Portuguese territory, others have deserted in various directions, and the balance are reported to have crossed the Komati river, and to be occupying spurs of the Lobombo mountains, south of the railway."

"A general tumult seems to have occurred when they recognized the hopelessness of their cause. Their long-toms and field guns have been destroyed and nothing is left of the Boer army but a few marauding bands. Kelly-Kenny is dealing with one of these, which occupies a position at Doornberg."

The war office has issued a lengthy report from Lord Roberts on the subject of the Johannesburg plot to overthrow the garrison and murder British officers, and the deportation of foreigners. After reiterating the known facts of the plot, Lord Roberts adds that he forthwith ordered the deportation of all foreigners arrested in connection with the plot for whose behavior their respective consuls could not vouch.

### TOOK ADVANTAGE

Of the Governor's Absence and Appointed a United States Senator. High-Handed Work of Utah's Acting Governor.

CHICAGO, Sept. 20.—A special to the Tribune from Salt Lake, Utah, says:

While Governor Wells and Secretary of State Hammond were in Idaho last night to meet Governor Roosevelt, and escort him to this city, Judge O. W. Powers, of Salt Lake, a Democrat, was appointed United States senator.

The appointment was made by Apollo Nebeker, president of the senate, who is acting governor, according to the constitution. It was signed a little while before midnight, at which time the train bearing Governor Wells was expected to cross the line into Utah.

The last legislature was Democratic, although the state officers were Republican. There was a bitter fight for the senatorship between A. W. McCune, of Salt Lake, and Congressman W. H. King. An adjournment was made without breaking the deadlock. The seat has remained vacant.

The Democrats discovered last night that they had the acting governor, Mr. Nebeker consulted a lawyer, and was told he had power to make the appointment. He accordingly did so. The state seal was locked up, and could not be obtained, but Nebeker's legal advisers maintain his action was valid anyway.

The appointment was drawn carefully in legal form, signed and witnessed. A formal acceptance will be filed with the secretary of state.

State Senator Nebeker said to-day that he had not been officially notified that Governor Wells was in Utah, and until so notified, he would institute all the reforms that ought to be in force under a Democratic administration.
